

From the President

Many activities are happening around the club right now. We're busy and continuing to grow! Over 1000 members use our facilities at one time or another and the outlook is for more growth.

The club continues to make improvements and repairs while catering to our clients and their needs.

The rifle/ hand gun range sees consistent and constant use and is overseen by the countless hours of our range officer volunteers. They do a wonderful job of making sure our range is a safe, supervised place for shooters of all different skill levels. The clay and steel plate shoots continue to draw large groups of participants and the friendly competition keeps everyone on their toes.

The Sunday Trap and Sporting Clay's shooting is also on the increase. Many newer shooters are stopping by to learn "how to" use/ shoot that new firearm they received from "Santa". Activity has grown on the trap fields and it's due to the hard work of all the volunteers and range officers that give of their time. Sunday is popular however not as popular as Thursday evening dinners cooked by the likes of Carolyn Nicodemus and the other hearty souls that brave Bruce Mac Donald's kitchen and their time volunteering behind the grill. The club boasts the best burger around!

As far as competition goes on the trap range, we're in the first third of the Olympic Continental season and the GHSC has a 13 bird lead over the next closest club. Other clubs are putting up a strong showing (getting better each year) however we have a good group of highly skilled shooters that keep us in the forefront each year. Led by John Mullins in "Master" class, with many shooters in AA, A, B classes etc, we'll continue to do our best to bring home the league trophy again this year.

Once again we received our grant request from the Friends of the NRA. I believe this is the 5th year we've achieved that goal and all the funds go straight back into the club, either on the rifle/ hand gun range, trap range and for our youth shooting programs. Pat Latshaw and her committee continue to do a fantastic job with this program. If you haven't attended one of our events I highly recommend you do so! This year's event will be on August the 22nd and will include shooting activities on both ranges as well as our dinner, silent, live auctions and the fun games we play. Please plan on attending this wonderful event.

Last but certainly not least- I'd like to take a minute and thank the many volunteers that spend countless hours around the club fixing, repairing, maintaining, building and up-keeping the wonderful site that we are so lucky to have because of our founding member's foresight. There are way too many people and projects to list here and many of you know whom I'm speaking about, so- thank them for their time and efforts because without their energy the club would not be what it is today!

GHSC continues to provide a safe facility, instruction, equipment, and supplies for anyone who desires a friendly environment to participate in supervised shooting sports.

Good shooting and see you around the club!

Doug Tenzler, President

WASHINGTON STATE NRA YOUTH HUNTER EDUCATION CHALLENGE

Paul Bunyan Sportsman Club
17902 Meridian E
Puyallup, WA 98375
April 18, 2009
